NAVIGATION MENU

If a drop-down list is available **choose VDIC**

Home: Client estimates, scheduling, referral process, and create new case (at bottom)

Cases: Create new case; all pending/unsubmitted, in process, finalized, canceled cases

Patients: patient list and their consults

PACS: images sent from your PACS to VDIC Timeless

Step 1 - Click [Create New Case](#) (found on the 'Home' or 'Cases' page)

- **Services:** choose the service(s) you are referring your patient for
- **Patient:** select the patient name from the drop-down list, or select [Add Patient](#)
 - Add new patient/client: enter patient and client details; name and cell phone are preferred, especially if you'd like us to contact them for scheduling!
- **Clinician:** select your clinic's referring veterinarian from the list, or select [Add Clinician](#)
 - Requesting Physician: skip this unless different from Clinician
 - Additional Emails: to share report with additional clinics/veterinarians.
- Select [Save & Continue](#)

Step 2 - Findings

- **Add PACS Study:** link the DICOM radiograph images you sent directly from your PACS - *see next page for DICOM send set-up instructions*
- **Add Attachments:** upload the last 3 months of medical records, diagnostic reports, full bloodwork reports, and DICOM/JPEG radiograph images (if not linked directly from your PACS)
- **Patient History:**
 - **Reason for Exam (brief):** *brief* referral summary - **this is the question you want answered;** please do not say "see attached records"
 - **Laboratory & Radiographic Findings:** *brief* summary of the **uploaded diagnostics**
 - **Current Medications:** list current medications strengths/doses, if applicable
- Select [Save & Continue](#)

Step 3 - Review and Submission

- Review that patient/client details are correct; edit by selecting [Profile](#)
- Edit Services, patient history, attachments, add additional comments if needed

Step 4 - Click [Submit Case](#) and *voilà*, it's complete! 🎉

**Final reports are automatically sent to your clinic, referring veterinarian, and additional email addresses
